Media Statement Regarding the Third Extension of the Temporary General License by the U.S. Commerce Department

Extending the Temporary General License won't have a substantial impact on Huawei's business either way. This decision does not change the fact that Huawei continues to be treated unfairly either.

We have long held that the decision by the US Department of Commerce to add Huawei to the Entity List has caused more harm to the US than to Huawei. This has done significant economic harm to the American companies with which Huawei does business, and has already disrupted collaboration and undermined the mutual trust on which the global supply chain depends. We call on the US government to put an end to this unjust treatment and remove Huawei from the Entity List.
